

Worksheet 1: HTML Practice

1. Create a web page similar to the one below to display your favourite TV Series and a corresponding image for that TV Show:

My Favourite Series

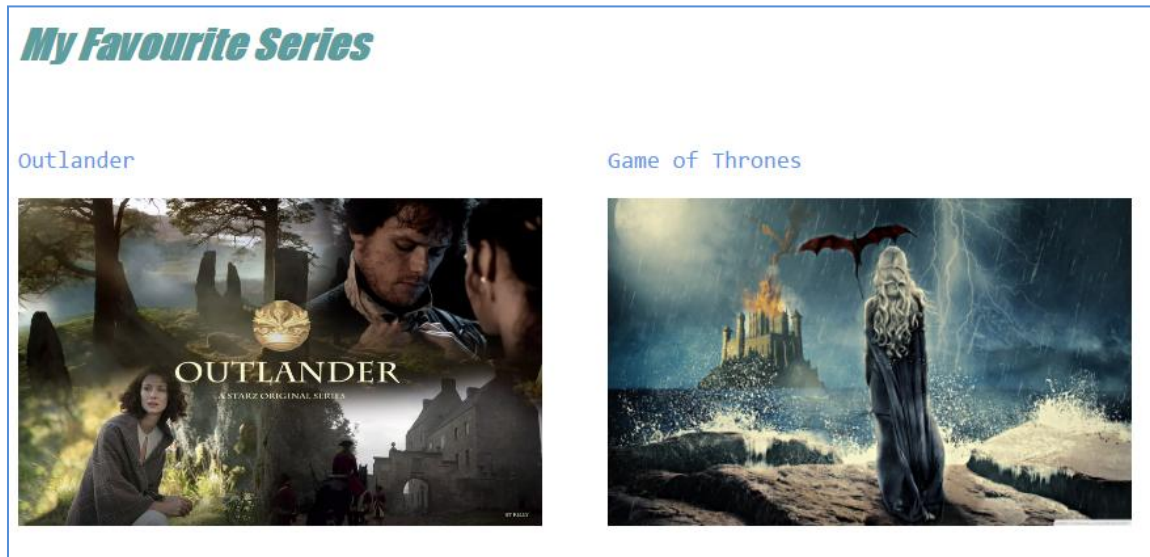

Outlander

Game of Thrones

2. Now that we have revised CSS, change the web page created in question 1, to look similar to the one below. You can add some extra spacing by using **line breaks**.

3. We can create different types of lists. Create the following list types in a web page:
- Unordered List (default)
 - Unordered List (square bullet)
 - Ordered List
 - Description List

Lists Examples

Unordered List (Default)

Animal Species

- Mammals
- Reptiles
- Fish
- Birds
- Amphibians
- Invertebrates

Ordered List

Best TV Shows in 2016 (Business Insider)

1. Game of Thrones
2. The Walking Dead
3. Pretty Little Liars
4. Westworld
5. The Flash

Unordered List (Square bullet)

List of the World's Continents

- Asia
- Africa
- South America
- North America
- Europe
- Antarctica
- Australia

Description List

ICT Acronyms

- HTML
- Hyper Text Markup Language
- CSS
- Cascading Style Sheet
- CMS
- Content Management System
- IDE
- Integrated Development Environment

4. Now create the following types of lists in a separate web page:

- Nested List
- Horizontal List

Lists Examples 2

Horizontal List

Menu Mock up

[Home](#) [News](#) [Contact](#) [About](#)

Nested List

List of Sports

- Basketball
- Athletics
 - Track Events
 - Field Events
- Football
